Dear Sirs;

It is quite often that I visit your museum and remain well satisfied with your great collections both for their number and variety.

In conjunction with your public services you probably may be of assistance to me in this matter. A friend, who is in possession certain metal coins found in the vicinity of Rome. (while digging there) He seems to be very much interested in them and their value. Are there any possible way. he may ascertain such, also if there are any catalogues in existence for this purpose.

Kindly accept my sincere thanks for any information you may give to enlighten me on the subject.

Very truly yours;

Ignazio R. Profeta.
